You will need to select this when logging in to view jobs for a specific jurisdiction.

Click here to submit a new request.

You can click on an application to correct or add any information needed on a returned application, or an application that has not been submitted to the jurisdiction. If the status says submitted, it means it is in the process of review by our team. Once accepted, it will move to the Active Jobs section.

Click here to upload Corrected or Revised plans for an existing project.

You can click anywhere within the boxed area of a project to see all correspondence. This includes review, status log notifications, and inspections for this specific job.

*If you are unable to find a project based on a search initiated in the search boxes, try searching the numbered portion of the address only. The system is very particular about spacing and/or spellings so it may not find an address if not input correctly (as the system wants it). Or you can clear your filters in the search boxes and select from the results.*

**You will only see projects that have you listed for the project. If the project was originally submitted by an architect or engineer, and the project needs to be moved to your name (a contractor portal account will need to be created prior to requesting the move), a written request can be sent to planreview@westmetrofire.org. Please include the project address and job number.**

Documents Library is where you will find West Metro Fire Permit Applications.

Click here to request inspections. Be sure to read all prompts.

Be sure all jobs option is selected if you have multiple users under your company name.
